CherryBomb; simply exploding with the goodness of pure Cherries

CherryBomb compresses 10Kg of pure sweet cherry fruit into just 1Kg of CherryBomb fruit powder. Nothing is taken away (apart from the water and stone) during this process but we do add vitamin C to CherryBomb because it's known to contribute to normal collagen formation for the normal function of cartilage as well as the protection of cells from oxidative stress.

Ingredients: Microcrystalline cellulose, Sweet Cherry, Ascorbic acid.

Recommendations: One capsule with food up to three times daily.

If pregnant, nursing, or taking prescription drugs, consult your healthcare practitioner prior to use.
